

The Pomegranate Guild of Judaic Textiles, Toronto

Challenge 5786

Hey there! Guess what the theme The Pomegranate Guild challenge for the year 5786 is?

It's the **"L'dor va Dor"**!

Traditions have been passed down "from generation to generation", as well as forward to the newer generations.

I was thinking about how generations are like a bunch of layers, so I had an idea!

How about we create a collage with different layers?

We could use sheerness or textures of fabrics, stitching and other fibres to represent each layer.

It'll be a visual representation of how generations are stacked on top of each other.

Maximum size 16"x16"

I'm all ears for any other ideas or suggestions you might have. Let me know what you think!

Reesa
